

# ARIDO 1.0

## GENERAL INFORMATION

### DESCRIPTION

Arido 1.0 is an additive synthesizer which includes a polyphonic driver to generate greater variety of timbres. That is, a distorter that works every note played separately.

This synth is suitable for bass, pads, ambient, distorted, nature, organs.

It brings on-screen Spanish-English help, MIDI Learn and pedal switch functions.

### ABOUT...

**[www.solcitomusica.blogspot.com.ar](http://www.solcitomusica.blogspot.com.ar)**

Arido 1.0 was developed by Gustavo Valletto for Solcito Música, using the software "Synthmaker". Solcito Música is the public identity of Gustavo Valletto.

For questions, write to [solcitomusica@gmail.com](mailto:solcitomusica@gmail.com)

### Versions:

Arido 1.0 DEMO.exe – Arido 1.0 Stand Alone

These are the Stand Alone full-operative versions. These are the way to get the Dll VSTi version.

Arido 1.0 VSTi.Dll

This is the VSTi version, that requires a User License.

# AGREEMENT

The use of all described versions of Arido 1.0 implies the acceptance of the terms that are described below:

Arido 1.0 is ownership of Gustavo Valletto, in ahead, the “developer”. You are, in ahead, “the user”.

Arido 1.0 DEMO.exe – Arido 1.0 Stand Alone are for free distribution. In order to obtain another version or another format of SuperSonico, it its required to read the corresponding documentation included in those other versions and formats.

In order to obtain money with Arido 1.0 DEMO.exe or Arido 1.0 Stand Alone, it is required authorization from the developer.

The developer grants to the user the right of use of Arido 1.0, but not its ownership.

Arido 1.0VSTi.Dll is Donationware. The instructions to get it are in the DEMO and Stand Alone mode.

The only ways for getting Arido 1.0 is downloading it from [www.solcitomusica.blogspot.com.ar](http://www.solcitomusica.blogspot.com.ar) or from the Web sites where the developer provides it, or shipping by the developer itself.

It is prohibited its sale, resale, rental, copy nor modification in anyone of its forms, except authorization of the developer.

Arido 1.0 is given as it is, without no guarantees of any type. The developer has developed this software so that it is inoffensive. However, the developer does not become person in charge by the consequences of its use. This responsibility is of the user. The user will have to avoid the excesses of sonorous volume, like in any other device of software and/or hardware, in order to protect from damage to ears, speakers and any other body or device.

The developer reserves the right to modify that terms without previous advice for the future versions of this synth.
